

100% Strawberry

Puree

les vergers
boiron

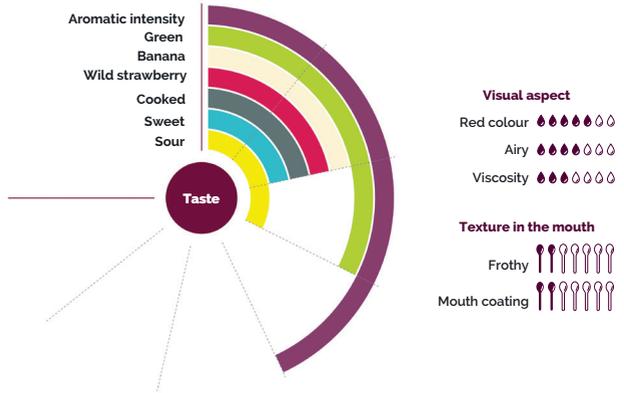

Fruitology®

100% strawberry puree

Ingredient: strawberry 100%

Origins

'Les vergers Boiron' strawberry puree is mainly made of strawberries grown in Poland, including the Senga variety, specifically developed to meet the organoleptic expectations of manufacturers. These strawberries are grown in open fields on sandy soil on small family farms.

Pairing suggestions

Apricot, guava, coconut, basil, mint, tarragon, olive oil, balsamic vinegar, rose, fennel, lily of the valley, pistachio.

Colour

Red and well-aired.

Taste

Strawberries are a very fragile fruit. To avoid deteriorating their quality and remain as close as possible to the fresh fruit, we use a finely tuned process for preventing any "cooked" flavours from developing.
